Research Interests

My primary research interests include planning, reasoning, memory, and decision-making capabilities of LLM agents, among other related topics.

Education

B.S. in Computer Science and Engineering
Seoul National University, Seoul, South Korea
March 2020 – August 2024

- Global Korean Scholarship (GKS)
- CSE Young Courage Award

Research Experience

Bachelor’s Honors Thesis
Seoul National University
Advisor: [Prof. Bernhard Egger](#) • August 2024
LLMs for Job Markets: Skill Extraction from Job Postings via LLM Annotations
[\[PDF\]](#)

Research Intern
January 2024 – April 2024
Advisor: [Prof. Eun Seo Jo](#) (Cornell University / SNU visiting)

- Conducted studies and experiments on code-switching patterns in low-resource and diglossic languages (Dzongkha – Bhutan; Tunisian Arabic/French).
- Designed annotation guidelines and evaluated multilingual LLMs on code-switched data.

Professional Experience

AI Engineer
[Rezi](#) – *AI-powered resume & job application platform, Seoul*
April 2023 – Present

- Established and currently lead the AI Engineering team.
- Led development of a LangGraph-based multi-agent system capable of building a complete job application from scratch.
- Designed and deployed hybrid search engine for jobs (BM25 + dense retrieval) serving thousands of job seekers daily.
- Built Named Entity Recognition pipeline for structured skill extraction from resumes and job descriptions.
- These projects directly contributed to scaling the platform’s user base from 500,000 to over 4 million users.

Founder
llmSearch.app – AI Answer Engine Analytics Platform
March 2025 – Present

- Founded and launched [llmSearch.app](#) for real-time tracking of brand visibility, ranking, and source citations across major AI answer engines.

Projects

Infection Prediction from IoT Sensor Data
SherpaSpace & KAIST
March 2023 – July 2023

- Analyzed 2M+ time-series points; built CNN & LSTM models achieving 97–98% accuracy on pineapple disease detection.
- Deployed models in production on commercial farms in Malaysia.

Awards & Honors

- CSE Young Courage Award, Seoul National University (2024)
- Global Korean Scholarship (GKS) – Full undergraduate scholarship, Korean Government (2020–2024)
- His Majesty The King’s Academic Excellence Award – Highest national rank, Bhutan (2017)
- Ranked 1st in Mathematics and Physics nationwide, Bhutan Higher Secondary Examination (2017)
- Top 3 out of 10,000+ students, Bhutan Board Examinations (2017)

Technical Skills

Programming: Python, Go, C/C++, Java, JavaScript
ML/AI Frameworks: PyTorch, TensorFlow, Pandas, LangChain, DSPy, spaCy, Transformers, Elasticsearch, OpenCV, LLaMA-Factory
Languages: English (IELTS 8.0), Korean (TOPIK Level 5)

Involvement

Executive Member & Technical Lead

International Students Association, Office of International Affairs, Seoul National University

- Led web infrastructure and digital events for 3,000+ international students.
